

BRITE Quick Change and Reduced Shank Drills

Fractional, Brite Finish, 118° End Point

118° End Point

Brite industrial drill bits feature premium grade high speed steel and precision ground 118° points. The premium grade steel will remain sharper longer and drill more holes than the common M50 drill bit. Designed to operate in stationary or portable tools for general purpose drilling in wood, metal and plastic.

BRITE 1/4" Quick Change Drills
