

Fused Carbide Tooth Reciprocating Blades

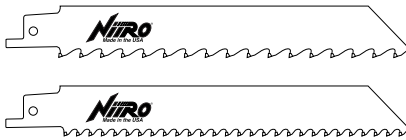

Nitro[®] reciprocating blades have fused carbide teeth offering superior performance and longevity in non-metallic materials: plaster, plastic, formica, slate, tile, marble, soft and hard woods, all composite construction materials and non-ferrous metals (brass, aluminum). Tested in reinforced plaster over lath... Nitro[®] reciprocating blades last 10 times longer than other blades.

3-1/2" Carbide Tooth Blade

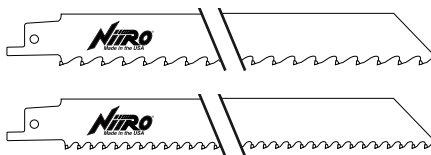

TEETH PER INCH	LENGTH	THICKNESS	APPLICATION	1 PIECE CARDED PART NO.	STD. PACK
6T	3/4"	0.035"	Clean cuts non-metallic materials, non-ferrous metals and composite construction materials 1/2" - 2".	10836	5
6TS	3/4"	0.035"	Scroll cuts non-metallic materials, non-ferrous metals and composite construction materials.	10830	5

6" Carbide Tooth Blade

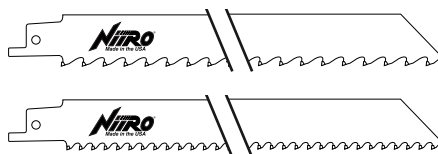

TEETH PER INCH	LENGTH	THICKNESS	APPLICATION	1 PIECE CARDED PART NO.	STD. PACK
3T	3/4"	0.035"	Fast cuts non-metallic materials, non-ferrous metals and composite construction materials 1" - 4".	10863	5
6T	3/4"	0.035"	Fast cuts non-metallic materials, non-ferrous metals and composite construction materials 1/2" - 4".	10866	5

9" Carbide Tooth Blade

TEETH PER INCH	LENGTH	THICKNESS	APPLICATION	1 PIECE CARDED PART NO.	STD. PACK
3T	3/4"	0.035"	Fast cuts non-metallic materials, non-ferrous metals and composite construction materials 1" - 6".	10893	5
6T	3/4"	0.035"	Fast cuts non-metallic materials, non-ferrous metals and composite construction materials 1/2" - 6".	10896	5

12" Carbide Tooth Blade

TEETH PER INCH	LENGTH	THICKNESS	APPLICATION	1 PIECE CARDED PART NO.	STD. PACK
3T	3/4"	0.035"	Fast cuts non-metallic materials, non-ferrous metals and composite construction materials 1" - 9".	10813	5
6T	3/4"	0.035"	Fast cuts non-metallic materials, non-ferrous metals and composite construction materials 1/2" - 9".	10816	5
